Professional Summary

I am a highly skilled, results-driven professional with over six years of experience in the Architecture, Engineering and Construction (AEC) industry. My ability to analyze and solve complex problems, honed by my background as a licensed architect and a self-taught software engineer, combined with my proficiency in project management and communication, enables me to effectively lead and manage multiple projects from design to completion.

I am dedicated to delivering high-quality work and committed to continuing my growth as a multi-disciplinary professional with strong analytical, leadership, and problem-solving skills. My experience in the AEC industry and my desire for ongoing learning and professional development make me confident in my ability to make a significant contribution to any organization.

Work Experience

Owner & Full Stack Software Engineer

WestXDX - Sole Proprietor

2021 - 2022

- As a highly skilled and driven full-stack developer, I am the owner and founder of WestXDX, a one-man startup focused on creating bespoke software solutions for the Architecture, Engineering, and Construction (AEC) industry.
- Utilizing a diverse set of technologies including Vite, ReactJS, Redux Toolkit, RTK Query, CSS + SASS, NodeJS+Express, MongoDB, TypeScript, Google Firebase, EditorJS, Svelte, Rollup, and Supabase, I have a proven ability to deliver high-quality and robust software solutions that meet the specific needs of clients in the AEC industry.
- With a strong background in software engineering and architecture, I am able to analyze complex problems and design effective solutions that are scalable, maintainable and easy to use.
- My proficiency in front-end and back-end technologies allows me to create responsive and user-friendly interfaces and to build robust, efficient and secure back-end systems. I am also committed to staying up to date with the latest industry trends and technologies, and I am always exploring new frameworks, libraries, and tools to improve my skills and deliver better solutions.
- My experience in software development, project management and client communication, enables me to effectively manage the design and production of multiple projects, and to exceed in client presentations and coordination with engineers and suppliers.

Owner & Principal Architect

Architect Philip Jon E. Lewis - Private Practice

2016 - 2021

- As a highly experienced and accomplished professional with a background in architecture, I bring to the table a wealth of expertise as the owner and principal architect of my own architectural design practice.
- With a portfolio of diverse and complex projects, primarily focusing on commercial, office, and residential spaces, I have honed my skills in leading and managing a team of 2-4 freelance staff.
- I am skilled in client management, design proposal presentations and leading the design and management of the production of design and contract documents required for building permits and construction.
- My exceptional communication and negotiation skills have enabled me to effectively coordinate with multiple third-party suppliers, engineers, mall administration, and other allied fields to successfully oversee the design, construction, and completion of multiple projects.
- Scope of works include but are not limited to the following:
 - Client management
 - Contract negotiation
 - Architectural practice management
 - Architectural design & development
 - Architectural Interiors
 - Design proposal presentations
 - Supplier, Contractor & Engineering Coordination
 - CAD, Blueprints & Detailed Contract Documentation

Duly Registered & Licensed Architect, Republic of the Philippines
Professional Regulatory Commission License Number : 00383344

Educational Background

Bachelor of Science in Architecture

The Pontifical & Royal University of Santo Tomas

2009 - 2015

- Graduated with an Outstanding Thesis Award.
- Involved with various student organizations such as UAPSA-UST, Architect, Student Council & The Heritage Conservation Society.

High School Diploma

Elizabeth Seton School - Main Campus , Las Pinas City

2005 - 2009

Additional Work Experience

Assistant Architect & Planner

Architect Chona Elvas-Ponce, UAP

2015

- Created design, marketing & visualization materials in order to communicate the plan & vision of various projects and assisted the principal architect in the planning & design of various masterplanned projects.
- Provided presentation drawings and renderings for a small scaled residential community that helped in client & project acquisition & completion.

Assistant Architect

Architect Charisse Ong, UAP

2014

- Assisted the principal architect in the 2D Encoding & 3D Modelling of various residential condominium fit out projects.
- Aided in the detection of clashes and errors in architectural & engineering drawings & documents.
- Built a strong relationship with the principal architect wherein she turned out to be one of my closest mentors and confidants up to the present.
