Professional Summary

Aspiring business, development & project professional as well as a highly motivated **architect, designer & software engineer** with **6+ years experience** in the AEC industry as a practicing architect and **2+ years experience building a one man startup.**

Self-directed startup founder, UX/UI designer & software engineer. Developed and built bespoke software for the AEC industry from scratch.

In previous positions held, managed the design and production of multiple architectural projects while simultaneously handling contract negotiations, client presentations and technical coordination with engineers, suppliers & other allied professionals in the construction industry.

Highly productive in challenging environments that are open to a multi-disciplinary approach to progress.

Keen on growing as a technically competent leader, a flexible team-player, and a productive member of the organization.

Work Experience

Owner & Software Engineer

WestXDX - Sole Proprietor

2020 - 2022

- Owner & Full Stack Developer of WestXDX, a one man startup currently working on bespoke software for the AEC (Architecture, Engineering & Construction) Industry. Current projects include the ff:

  - TapTapTask - (taptaptask.com) a task-management tool for phase-based projects. front end code made with Vite, ReactJS, Redux Toolkit, RTK Query, CSS + SASS and backend code made with NodeJS+Express & MongoDB. All written in typescript. (full code on my github profile)

  - QuickNotes - (quicknotesbyphilip.netlify.app) a minimalist block style editor made with typescript, google firebase for the database, React, Vite, EditorJS, CSS + SASS.

  - Archestimator - (archestimator.com) currently an ongoing project. a construction cost estimator for architects. Currently building with typescript, svelte, vite + rollup & supabase. Exploring moving to sveltekit once the framework becomes more stable.

Owner & Principal Architect

Architect Philip Jon E. Lewis - Private Practice

2016 - 2022

- Owner & Principal Architect of Ar. Philip Jon E. Lewis, an architectural design practice.

  - The practice handled multiple architectural & interior projects but mainly consist of the commercial, office, & residential type. Handled 2-4 contract staff at any given time.

  - Responsibilities mainly compose of project management, client management, contract negotiations, design proposal presentations and leading the design and architectural project management of the production of design and contract documents needed for building permits & actual physical construction.

  - Coordinated with multiple third party suppliers, engineers, mall administration and other allied fields with regards to the design, construction & completion of multiple projects.

  - Scope of responsibility include, but are not limited to the following:
    - Project Management
    - Client Relationship Management
    - Contract Negotiations
    - Architectural Practice Management
    - Architectural Design, Planning & Interiors
    - Technical Coordinations
    - Design Proposal Presentations
    - Supplier, Contractor & Engineering Coordination
    - Computer Aided Design & Construction Blueprints
    - Detailed Contract Documentation
